Women in Leadership Masterclass

Explores specific challenges faced by senior women as they progress through their careers. This masterclass will bring together participants and speakers from across the sectors to share their different perspectives on the challenges women leaders face such as leading out of one's comfort zone, authenticity, confidence and progression.

Leadership Wellbeing Workshop

This workshop will explore personal resilience and wellbeing as a leader and help to identify what impairs leadership effectiveness. Participants will also consider what builds psychological resilience and emotional strength in the face of adversity.
